

STREAM DEBRIS REMOVAL PROGRAM

REMOVING JAMS, TO SAVE OUR LANDS

The Jefferson Soil & Water Conservation District, in partnership with the Jefferson County Commissioners & the JB Green Team, is accepting applications for the Stream Debris Removal Program. This program provides assistance to Jefferson County property owners who have a concerning log jam or a woody debris build up that poses a flooding threat to an agricultural field, private residence, or public infrastructure. To qualify, applicants must own the property for which they are applying. Additional information regarding this program, along with applications, can be found at our website jeffersonswcd.org or by visiting the JSWCD office.
